NSCAD ART  
FACTORY

2018-2020

## about

The NSCAD Art Factory was developed by Leesa Hamilton, Education and Community Outreach Consultant and Catherine Allen, Manager NSCAD Extended Studies, in partnership with Phoenix Youth Programs. We thank the Department of Communities Culture and Heritage for its generous support of this program through the Culture Innovation Fund.

The goal of the program is to 'enhance art education' to at-risk, marginalized and under-represented populations while providing valuable, cultural sector employment opportunities, training and community engagement opportunities to NSCAD Students.

*Art Factory Intensives* are 6-8 week hands-on workshop series (held once per week). Facilitated by current NSCAD students, using NSCAD facilities and

studio spaces. The intensive programs are designed to enable incremental learning for participants through peer to peer education. Each intensive works with a cohort of participants from one of our community partners. The training, employment and support offered to student facilitators in the *Art Factory Intensives* prepares them to teach/facilitate *Art Factory Outreach* Workshops.

*Art Factory Outreach* Workshops are designed to provide an introduction to arts practice. NSCAD students facilitate a series of mobile hands-on art making workshops to various community members and locations. These are short (2-4 hr) project based workshops developed by NSCAD students who have been trained in facilitation through *Art Factory Intensive* program.
